

## e-VOC: Third Transnational Meeting in Rome (Italy)

On 18<sup>th</sup> and 19<sup>th</sup> January, the four partner organisations of the e-VOC project met in Rome (Italy) for the third project meeting.

The e-VOC project aims at improving the offer, accessibility and quality of training for the professionals of the European voluntary sector on the validation of competences. To do so, four organisations from four European countries have joined forces to develop the first open and multilingual online training course for the professionals of the European voluntary sector on the validation of competences.

During the first day of the meeting, the partners from Italy and Spain presented the results from the testing carried out with professionals of the voluntary sector from Italy and Spain.

During the second day, the delegates from the four partner organisations evaluated the results from the testing and defined the improvements to be implemented on the online training course. These improvements will be presented during the next project meeting, in Galway (Ireland), planned for June 2018.

This project, co-funded by the Erasmus+ programme of the European Union, is a joint initiative of: the Spanish Volunteering Platform (Spain), CSVnet (Italy), EDOS Foundation (Netherlands), and National University of Ireland, Galway (Ireland).
